

The
University of Toronto Aerospace Team

would like to recognize

Swagelok Central Ontario

for their contributions in making the 2014-2015 Academic Year a success. From competition-winning remote-controlled aircraft to autonomous drones, suborbital sounding rockets to medical research nanosatellites, and educational outreach initiatives that have reached thousands from around the world, we would not have achieved so much without you. On behalf of our 89 undergraduate and graduate students, thank you.
